

In the last 2 years, I went from \$0 to \$10K / month in Passive Income with Vending Machines

→ About Me

In 2012, was working 60hrs/wk making a measly \$1200/mo. Do that per hour math!

Started a Vending Route from Ground Zero - now I make over 8x my old salary with Vending, working only 4 hrs/month.

Now I help Entrepreneurs build their own Vending Routes.

Passionate about **Financial Freedom** and **Passive Income Streams** so I can spend more time with my family.

So, why did I start this journey?

To Spend More Precious Time with My Wife and Daughter...

... And To Spend My Afternoons Doing the Things I love

**I want to help you achieve this too, but quicker.
That's why I made this guide:**

- Spent hours of trial and error figuring out what works and what doesn't
- Spent and lost \$1000s of dollars on faulty machines, bad locations and stupid products
- Wished I had all this information when I started.

I ask for one Simple Favour...
